To the Honorable Senate and House of Representatives of the State of Maine in Legislature assembled

THE Proprietors of the Penobscot Boom Corporation respectfully represent that they have been at great expense in erecting the Penobscot Boom for the protection and security of the Logs which annually float down the Penobscot River

And for the protection, security and delivery of these Logs to the rightful owners and claimants, your petitioners are at a great annual expense

To protect the interest and meet the convenience of the public large sums of money must necessarily be annually appropriated by the proprietors to defray the expenses of the Booms

For the encouragement of the Proprietors to enable them to meet these appropriations and expenses and to put the Booms annually in a condition to meet the wants and convenience of the public your petitioners would humbly pray that they may be allowed a fair reasonable and adequate toll or boomage upon the Lumber which is annually secured and protected in their Booms and that they may have a sufficient lien upon the Lumber to secure the payment of such Boomage and other expenses and that the Legislature in their wisdom will adopt such regulations as to Toll and Boomage as shall be for the most general benefit of your petitioners and those whose property they secure and protect and as in duty bound they will ever pray SAMUEL VEAZIE

New READING BOOK for Schools.

THE MONITORIAL READER, or a Monitor to Youth, holding up to their view Models whereby to form their own Characters By DANIEL ADAMS Author of Adams's New Arithmetic

EXTRACTS FROM THE PREFACE

THE MONITORIAL READER possesses distinctive traits The object is to supply what is believed to be the great desideratum in our schools a series of exercises relating to what concerns the practical matters of life truth, integrity, honesty, industry temperance forethought frugality patient endurance of adversity, and whatever else tends to form and fix the character of youth

We wish to impress it on the minds of those into whose hands these exercises shall come, now, in the seed time of life, what is here so abundantly inculcated, that 'Every man is emphatically the architect of his own fortune that with themselves it lies whether they shall ever be any thing or nothing that a monied capital to begin with does not weigh a whit in the balance for or against them that, coming into life with health, strength, capacity for labor, good education, a useful and respectable trade, habits of industry sobriety punctuality frugality, and, above all, with a GOOD AND UNSULLIED CHARACTER, they have the best of all capital a moral capital the noblest of all power moral power and the most certain means of honest and honorable accumulation and fortune, and may be sure, under circumstances ordinarily propitious, to rise to that competency of influence, respect, and general confidence and that honorable measure of wealth and independence, which should fully satisfy a reasonable and virtuous ambition'

EXTRACTS FROM RECOMMENDATIONS

The influence will all be found on the side of virtue, morality and religion. Occasional comments are given Difficult or unusual words are defined Prose and poetry are suitably intermingled

It is hardly to be imagined that the book should fail of popularity It certainly would not had it not so many competitors that have got the start of it in the race As it is its mettle is such as to give it fair promise of ultimate success in the contest Boston Recorder

Dr Adams Having examined to some extent your Monitorial Reader, I am pleased with its plan, its object, and the manner in which it has been executed It seems adapted to the intellectual and moral improvement of those for whose use it was designed I trust it will prove to be what its author fondly anticipates

(Rev) Z S BARSTOW, Keene

It is just such a book as our New England boys and girls will be glad to see for it inculcates in a pleasing manner industry, frugality, truth honesty, temperance peace kindness, fortitude and a cheerful piety The Vocabulary, at the end, and the arrangement for defining words will add to its value in the hands of a judicious teacher

(Rev) ABIEL A. LIVERMORE, Keene

We have also recommendations from a number of individuals and periodicals among which are D Crosby, Preceptor of the High School Nashua, J Newton Brown Professor of Theology at New Hampton It is also adopted by the Associations of School Teachers in Cheshire and Hillsboro' counties, and by the School Committee of Concord

About 8000 copies have been published, and mostly disposed of

HUMAN HAIR.
CLEANLINESS OF THE HEAD AND HAIR.

STRANGE it is that persons who attend strictly to personal cleanliness baths, &c should neglect the Head the Hair the most essential the most exposed and the most beautiful when properly cared for, of all the gifts of the Creator Perfectly free may it be kept of dandruff or scurf with a certainty that the hair cannot fall out, by the use of the Balm of Columbia Ladies, will you make your toilet without this article? I answer fearlessly, No, if you have once tried and experienced its purifying effects its sweet perfume

A hundred articles have been put forth on the credit of this the only first the only really valuable article A mass of testimony from all classes to these facts

LOOK OUT Counterfeits are abroad, look always for the name of COMSTOCK & Co on the splendid wrappers, and never buy it without that name

[From the Boston Chronicle Jan 10]

☞ We see by an advertisement in another column that Messrs Comstock & Co, the Agents for Oldridge's Balm of Columbia, have deputies to sell that article in Boston and elsewhere We know a lady of this city whose hair was so nearly gone as to expose entirely her phrenological developements, which, considering that they betokened a most amiable disposition was not in reality very unfortunate Nevertheless she mourned the loss of locks that she had worn and after a years fruitless resort to miscalled restoratives purchased some months ago, a bottle or two of Oldridge's Balm, and she has now ringlets in rich profusion, glossy, and of raven blackness We are not puffing none of the commodity has been sent to us and, indeed we do not want any for though we were obliged to wear a wig a year ago we have now, through its virtue, hair enough and of a passable quality of our own

Daring Fraud.

The Balm of Columbia has been imitated by a notorious counterfeiter Let it never be purchased or used unless it have the signature of COMSTOCK & Co on a splendid wrapper This is the only external test that will secure the public from deception

JOHN S. SAYWARD, Editor.

WEDNESDAY, FEB. 2, 1842.

The Bankrupt Law.

This day the Bankrupt Law takes effect, and many oppressed men will feel that to them the day of deliverance has come The same door that is opened to the path of freedom for the honest but poor and oppressed debtor will allow the escape of a few dishonest knaves, who have richly earned and most righteously deserve to wear the chains they have bound upon themselves But we should remember that the rain descends upon the evil and the good upon the just and the unjust It is better moreover that twenty guilty persons escape than that one innocent person should suffer So we rejoice that this day we have in the United States, what has long been needed, a uniform Bankrupt Law One great measure of relief which the people needed one of the blessings of a whig administration one important public act of the extra session has been secured.

This measure, we trust, will tend to restore harmony in Congress, and bring the servants of the people there congregated to labor more for the country and less for the gratification of personal or partizan feeling But we will not mar the pleasure we feel to-day by alluding to any thing that has transpired in Congress of an unpleasant character

Agricultural Periodicals.

We have just received the January number of the Albany Cultivator, a periodical of the highest order, designed "to improve the soil and the mind An examination of its contents and the acquaintance we have with other agricultural publications, satisfy us that no interest of society is so ably sustained by periodicals as that of farming And so interesting is the subject of culture made by the able writers in the Cultivator so well illustrated is every subject by appropriate engravings that the periodical possesses attractions for the inquiring mind engaged in other pursuits

To the practical farmer such a periodical must be of great benefit personally in his daily labor, while the light it must shed upon the minds of a family of children upon a farm, must be of incalculable good. They will become not only well informed upon the general subject of cultivation but deeply in love with the pursuit And with cultivated tastes and minds they will be prepared to carry the noble science of farming upward and onward in its bright career

The Cultivator and its kindred publications are doing much to elevate the character of farming No earnest farmer can well do without a copy, and parents in our cities and large towns will find the happiness and usefulness of their offspring promoted by furnishing them with periodicals that give an attractive view of industry and unite the beauties of science with the practice of the arts

☞ An elegant four wheel pleasure waggon, made in the best style, of first-rate white oak, and hung upon thorough braces, well ironed, with brass bands on the hubs, and the seat elegantly lined, of miniature size, the entire length being about one foot, was presented to the Cabinet of the Mechanic Association on Friday evening last, by John G Molesworth and Chancy Thomas, apprentices to Messrs T J Whiton & Co, carriage-makers The workmanship of this beautiful gem, reflects the highest credit upon these boys, not only for skill in handling tools, but for taste in design They have been among the most constant readers of the Association Library, and from this manifestation of the interest they feel in the Association, give the strongest assurance that, in future years, they will labor in the good cause of the general elevation of the industrious classes

☞ Our ardent cotemporary of the Woodstock N B Telegraph, possesses the knack of getting up a story in reference to the disputed territory to suit the fashion As affairs there are known at this time to be rather quiet he starts the story that a poor Frenchman from Madawaska had occasion to go over to Fish River, when, for some slight cause the U S soldiers stripped and flogged him without judge or jury If there was much excitement about the Boundary this one poor Frenchman would have been multiplied to any convenient number from ten to a thousand!

The story gives an occasion for the gallant editor to growl his dislike at the *stripes* that grace our national flag, which, he thinks, are quite too emblematical of those inflicted on British subjects Well, the stripes may awaken unpleasant associations, but they are likely to continue as enduring as the *stars*

ROBERT MERRY'S MUSEUM for February, 1842 Bradbury & Soden, Boston

We have told our readers that this Magazine for children is under the editorial charge of S G Goodrich, better known by the youthful portion of the public as Peter Parley The present number contains a letter from him, stating that the publisher of Parley's Magazine wished to make it appear that the interest of that Magazine in times past, did not depend upon the connexion of Mr Goodrich with its editorial department The publisher refuses to state that Mr G is not now connected with it The fact is, - to be, that the Museum has the life and interest of the author of Peter Parley, and is deserving of public favor, while Parley's Magazine, having I A the head, is trying to hold on to the name. A fair competition between the two may be a benefit to the public, and to all parties concerned in Magazines. But sailing under false colors, or concealing the truth, cannot be either pleasant or profitable.

The present number of the Museum is very good The children like it much The price is one dollar a year

Punctuality.

MR EDITOR I am desirous, through the medium of your paper, to suggest a few hints to my neighbors upon their want of promptness, (or to speak more to the purpose) their constant practice of falsehood

It matters very little with me, when I leave a watch to be regulated, an article of jewelry to be mended a book to be bound, or a pair of slippers to be soled, whether I have them in three days, or three weeks but it does concern me *much*, to have them when *promised* Individually, my advice would have little, perhaps, no influence, but I am at the head of a family, and pay no very small sum annually for mechanical labor, and I am resolved, to employ *none*, but those who will punctually fulfil their engagements many I have proved several have done their *last work for me;* and when I shall have got my coffee-pot with its new bottom my book secured in its binding, and a few articles of dress from different shops, which have been promised for every succeeding day during the last two weeks when I shall be so fortunate as to get them, and a few more articles home, then may *some others* take their discharge

I have always entertained great respect for the mechanical portion of our community, and it is with regret, I observe a want of punctuality becoming very general among them, which must materially impair both their morals and their interest

If the remarks which I have made, and the influence of my future patronage, shall effect any change in those who have so grossly imposed upon their employers, I shall feel amply repaid for the vexations I have experienced, and be spared the trouble of making more than one more change in each department of services required Y

The Special Minister.

The appointment of Lord Ashburton to proceed to this country as a special minister for the purpose of settling the differences which exist between the two countries, which should ever be on peaceable terms, shows a strong desire on the part of Great Britain to avoid hostilities with this country, and we doubt not that it will be met in the same spirit by this Government. The appointment is generally highly approved of by the English press, and was made after a consultation with Mr Everett, our resident Minister, and will doubtless be highly acceptable to our Government The London Times in a very good article on this subject, says

"The selection of Lord Ashburton for this delicate mission appears to us, upon the whole, to be deserving of commendation His lordship is by universal acknowledgment, the prince of the British merchants With immense mercantile interests extending over the whole world interests which, while peculiarly identified with America, cannot suffer interruption in any quarter, without incurring a serious injury in their entire range his lordship has the advantage of proceeding to the United States, not only with the highest claims upon the consideration of that trading community, but with a direct personal concern in the maintenance of general peace"

The London Shipping Gazette of the 31st ult says

"It must on all sides be admitted that the Cabinet of this country could not have selected an individual more likely to procure the desirable object in view, so far as its achievement can be effected by any representative of this country The ability and experience of Lord Ashburton, the great influence which his commercial connexion with America must carry with his name, the surety that continuous peace upon a proper and honorable basis, is the object of our Government, which the employment of the noble lord in the negociation affords, all these circumstances stamp the appointment as the most eligible that could be made, and as a selection for which much credit is due to her Majesty's Ministers"

The North Eastern Boundary.

The Commissioners for surveying the North Eastern Boundary, held a meeting in New-York last week The Commercial says that their operations consisted in defining the meridian line, in surveying the line claimed by Mr. Featherstonaugh and Mudge, and examining the Highlands The same paper remarks

"Owing to unforeseen difficulties upon the meridian line, and the fact that the boundary claimed by the two nations is much longer than could have been inferred from any existing map, the entire survey of the disputed territory has not been completed The lines undertaken by Messrs Renwick and Talcott were estimated, by the best authorities extant, at four hundred and twenty miles We understand that their joint surveys already amount to six hundred miles upon the line of highlands, in addition to the surveys necessary to connect their work with known geographical points In spite of their having performed much more than had been anticipated, parts of the boundaries claimed by both governments had not been reached at the time when all farther operations were interrupted by the setting in of winter.

We regret to learn that the presentation of even the materials necessary for the decision of this question may be delayed for the want of the necessary funds, in consequence of the appropriation having been exhausted by the increased difficulties and extent of surveys of which we have spoken

The New York Tribune remarks Congress must soon decide whether the hammer and the shuttle of the American Freeman shall be paralized, and the bread taken from the mouths of his children, to prolong the starving dependence of the hapless serfs of European Aristocracy If our country has but the manhood now to proclaim and abide by the great principle of FAIR AND EQUAL TRADE FOR NONE, our industry and business, will revive as if by magic, while the shackles of Commercial vassalage which Great Britain forges for the whole world, will fall from the limbs to which they are now so galling RECIPROCITY IN TRADE, firmly insisted on, will overthrow the corn-law monopoly of the British Aristocracy, and give freedom and plenty to the famished millions of Great Britain. The American who would refuse to strike a blow for *their* emancipation, should at least be willing to make an effort for *our own*.

CONGRESS.

Highly Important from Washington---the Bankrupt Bill Safe---the Bill to Repeal it Rejected by the Senate---Probable Censure of Mr. Adams by the House.

[From the Baltimore American]

After a stormy debate in the Senate, on Friday, the bill to repeal the Bankrupt Bill was REJECTED, by a vote of 23 to 22

The following are the yeas and nays, which were called on motion of Mr Clay

Yeas Messrs. Allen, Archer, Bayard Benton, Buchanan, Calhoun, Fulton, Graham, King, Linn, McRoberts, Morehead, Pierce, Prentiss, Rives, Sevier, Smith of Conn, Sturgeon, Tappan, Woodbury, Wright, Young 22

Nays Messrs Bartow, Bates, Berrien, Choate, CLAY, of Ky, Clayton, Evans, Henderson, Huntington, Kerr, Mangum, Merrick, Miller, Phelps, Porter, Simmons, Smith of Ind. Southard, Tallmadge, Walker, White, Williams and Woodbridge 23

SO THE SENATE REFUSED TO REPEAL THE BANKRUPT LAW

In the House, a call of the members was ordered, and proceeded in until 201 members answered to their names On motion of Mr Fillmore, all further proceedings were then dispensed with

The question now being on the motion to lay on the table

Mr Thompson, then, at the request of Mr Marshall, withdrew the motion to lay on the table, with the understanding that the latter should renew it

Mr Marshall then took the floor and made some remarks for the purpose of setting himself right on this question He then renewed the motion to lay on the table The yeas and nays being ordered, the clerk was proceeding to call the roll, when

Mr Adams asked permission to make some remarks. He said he wished it to be understood that he would not be responsible for the consumption of one single moment of time of the discussion on this floor The gentleman from Kentucky had been making a most eloquent invective, founded on a principle which was utterly false [Here Mr A was called to order on the ground that as the yeas and nays on the motion to lay on the table, had been ordered, debate was not in order] The clerk then proceeded in the call of the roll, after which the vote was announced as follows in favor of laying on the table, 96 against it, 110 So the House refused to lay it on the table

Mr Adams took the floor in his defence and contended for his right to a fair trial before his peers, that the sole thing for which he had to answer to the House, was the crime of presenting a petition; that the charge is a mere accusation, unsustained by any law it is a railing accusation

Mr A then proceeded to particularize the combination which he said had been formed against him for the purpose of bringing down upon him the censure of the House In doing this he was very sarcastic He then referred to the threats of the Nullifiers, in 1832, to secede from the Union, and how they were put down by the threat of Andrew Jackson, to bring down upon them the "second section." [Laughter] Yet the whole representation from South Carolina were now voting for these resolutions of censure

After proceeding for some time, Mr Adams offered sundry resolutions, calling for information from the President on various resolutions He said these resolutions would all be essential to his defence.

Mr Wise took the floor and House adj

Steamboat Explosion.

At a trial of a newly constructed Iron Steamboat in St. John harbor, on Thursday last, the boiler burst with a tremendous explosion Mr Craig, the builder, and a lad who were on deck, says the Chronicle were blown overboard, the lad got on shore and Mr C after struggling to secure himself to the wharf, was seen to sink.

Some three or four hours after, he was discovered by a lad, sitting on a log under the wharf, in a state of stupor and exhaustion, and taken from thence and medically attended. Two boys, apprentices of Mr Craig, who were in the Engine room at the time, were severely scalded, one of them, (Jeremiah M'Carty,) is since dead A crowd of people were standing on the wharf at the time of the accident, several of whom were thrown down by the concussion and injured The accident occurred from the circumstance of the boat being started before a Feed pump had been supplied, the water in the boiler being nearly exhausted, and a part of the boiler becoming overheated

Effects of a Newspaper on Indians.

The following extract is from Mr. Catlin's recent work on the American Indians

"The sensation I produced amongst the Minatarees, while on the Upper Missouri, by taking from amongst my paint apparatus an old number of the New York Commercial Advertiser, edited by my kind and tried friend, Col Stone, was extraordinary The Minatarees thought that I was mad, when they saw me for hours together with my eyes fixed upon its pages. They had different and various conjectures about it, the most current of which was, that I was looking at it to cure my sore eyes, and they called it the "medicine cloth for sore eyes" I at length put an end to this and several equally ignorant conjectures, by reading passages in it, which were interpreted to them, and the object of the paper fully explained after which it was looked upon as a much greater mystery than before, and several liberal offers were made me--for it, which I was obliged to refuse, having already a beautifully garnished robe from the hands of a young son of Esculapius, who told me that if he could employ a good interpreter to explain every thing in it, he could travel about amongst the Minatarees, Mandans, and Sioux, and exhibit it after I was gone getting rich with presents, and adding greatly to his list of medicines, as it would make him a great Medicine Man I left with the poor fellow his painted robe and the newspaper, and just before I departed I saw him unfold it to show some of his friends, when he took from around it some eight or ten folds of birch bark and deer skins, all of which were carefully enclosed in a sack made of the skin of a pole-cat, and undoubtedly destined to become, and to be called, his mystery or medicine bag"

Making Candles.

The season of the year has arrived for families in the country to make up their supply of candles for the year, and as much trouble and extra labor is occasioned by want of skill, I will, in order to enable people to obviate this, give some brief directions for dipping candles

The tallow, when melted, should be ladled into a wooden vessel of convenient width and depth, which has been previously heated by filling it with boiling water for an hour or more Fill the vessel within an inch of the top, with melted tallow, and keep it that height by adding hot tallow or hot water By this means the candles will be kept of a full size at the top, and not tapering off to a point, as is often seen with country candles.

The tallow, when used for dipping candles should not be too hot. A temperature that will allow the finger to be dipped in without burning, is sufficiently hot, and at this temperature the candles will take on the tallow very fast The wicks should be lowered into the melted tallow gradually, and should be lifted out of the tallow so slowly that when the bottom of the candles are clear from the surface of the melted tallow, no tallow will run off them. When the candles are raised quite out of the melted tallow, the tallow will run off the candles in a stream, whereas if the candles are raised out slowly, not a particle of tallow will fall from the candles. A few trials will satisfy any person in this matter If the tallow is boiling hot, the wick will not take on the tallow to any considerable extent

When candles are raised out of the tallow rapidly, the candles will be large at the bottom and the tallow will extend below the wick, so that when burnt in the candlestick a piece of the candle will have no wick in it, and therefore, for burning will be useless Where persons have no suitable wooden vessels, an iron vessel will answer for a dipping vessel When tallow has been thoroughly melted over the fire, should it be dirty or impure, throw into it, while hot, a small quantity of finely powdered alum, and in a short time a scum will be seen rising to the surface, in appearance like dirty froth Skim this off as it rises This scum will rise for half an hour or more

These directions are plain and easily complied with, and one trial will be satisfactory Persons following these directions, will save more than one half the usual labour of making candles, besides having better candles I speak from abundant experience, and therefore with full confidence Journal of Com

The whole community seem to be afflicted with severe colds and distressing coughs, which is natural enough at this season of the year We ourselves labored for a few days with a bad cold, but happening to be passing that way, we called in at 79 Fulton street, and purchased some Compound Boneset Candy, prepared by William Brown of Boston This candy, by using it for several consecutive days, entirely removed our cold, and thoroughly renovated our system It is composed of a great variety of vegetable materials, many of which are used separately for the cure of colds. WALCOTT'S PATENT

Self feeding Shingle Machine.

THIS Invension has been lately patented by the Subscriber. He desires to call public attention to the Machine, being able confidently to guarantee its satisfactory operation; at the following rate, viz: One man can cut *One Thousand* per hour, by hand; or by water, or other power, he can cut from *Six to Eight Thousand*, in the same time. The simplicity of construction, regularity of motion, and the rapidity and superiority with which it executes the work, the Patentee ventures to say, cannot be surpassed, if equalled, by any Machine in the country.

TRUMAN WALCOTT.

The annexed are a few of a very large number of certificates that might be produced:

This is to certify, that we have for some years been practical Carpenters and Joiners, and have used Shingles made by Walcott's Patent Shingle Machine, and they were well formed, and of good quality, and gave perfect satisfaction.

ENSIGN ROGERS,
ALBERT GRANT,
ISAAC H. RHODES.

So. Orrington, Jan. 8, 1842.

This certifies that we have had Pine Logs made into Shingles, for our own use, with Walcott's Patent Shingle Machine and take pleasure in testifying to its great utility. Our Shingles were smooth, well-formed and of good quality, and the lumber made nearly or quite double the quantity that could have been made either by sawing or shaving.

Dr. GEO. W. WENTWORTH.
ALEXANDER LANE.

So. Orrington, Jan. 8, 1842.

We hereby certify that we have assisted in making nearly One Million of Shingles with Walcott's Patent Shingle Machine, and take pleasure in testifying to its usefulness. The Machine was worked by water power, at the rate of six to eight thousand per hour, and has cut more than sixty thousand in a day.

LORENZO D. WENTWORTH,
OLIVER H. HYMES,
NAAMAN SWETT.

So. Orrington, Jan. 8, 1842.

The Subscriber, who is sole Agent for the sale of the above Machines, and Rights, for the State of Maine, has one of them in operation, at South Orrington, cutting from 30 to 40 thousand per day. The attention of the public is respectfully invited to an examination of the merits, and utility of this improvement. Price of Machines, $50 each.

BOSTON, May 20th, 1841

The undersigned having made use of William Brown's Portable Cake Yeast for rising bread, in our opinion this new preparation of Yeast is far better than any other article we have ever made use of, and will make the bread much whiter and very light, and we believe to be free from all impure ingredients.

THE MOST HIGHLY APPROVED MEDICINE

Now in general use for Coughs, Colds and all Diseases of the Lungs.

THE VEGETABLE PULMONARY BALSAM is believed to be the most popular medicine ever known in America, for Coughs, Colds, Asthma, or Phthisic, Consumption, Whooping Cough, and Pulmonary Affections of every kind.

Extracts from Certificates.

Dr. Samuel Merrill of Concord, N. H., writes "that he is satisfied the Vegetable Pulmonary Balsam is a valuable medicine, having been used with complete success in cases which had previously resisted the most approved prescriptions."

Dr. Truman Abell of Lempster, N. H., writes that he confidently recommends its use in all complaints of the chest, as equal, if not superior to any other medicine within his knowledge.

Dr. Amory Hunting of Franklin, Mass., writes that after having prescribed the usual remedies without relief, and having consulted with several eminent Physicians, he has found the Vegetable Pulmonary Balsam to have had the desired effect, and recommends it as a safe, convenient and efficacious medicine.

Dr. Thomas Brown, of Concord, N. H., writes that, to his knowledge, it has never disappointed the reasonable expectations of those who have used it.

The public are particularly cautioned against the many Counterfeits or Imitations, which have partially or wholly assumed the name of the genuine article.

☞ Be assured that it is not genuine unless one or both of the written signatures of SAMPSON REED or WILLIAM JOHN CUTLER, are found attached to the yellow label on a blue envelope. (All labels of and after the date of Dec. 1839, will have the written signature of Wm John Cutler.) Prepared by REED, WING & CUTLER, (late Low & Reed,) Wholesale Druggists, 34 Chatham street, Boston, and sold by Druggists, Apothecaries and Country Merchants generally. Price 50 cents.

THE LION OF THE DAY.

THE OLD VEGETABLE OR GERMAN PILLS.

☞ *POSITIVE, OR NO PAY.*

THEY are highly recommended by Dr. Valentine Mott, of the city of New York. A medicine to prevent the attacks of disease, to keep the system in healthy action, and to eradicate as soon as possible every disease as soon as it appears, has been the great study of medical men for many years without success. The subscriber, however, not expecting his Pills to cure all the ills which flesh is heir to, confidently recommends them as certain and efficacious in the following: Headache, Jaundice, Dyspepsia, Cholic, billious, remittent, and intermittent Fevers, diseases of the Liver, and Spleen, Female Obstructions, Rheumatism, Foul Stomach, Dizziness of the Head, Loss of Appetite, Weakness, and trembling of the Limbs, Nausea, or sickness at the Stomach, Flushings of the Face, Summer Complaints, Measles, Scarlet Rash, and will be found invaluable in complaints of the Digestive Organs, and particularly those arising from impurity of the blood. As a preventive against Fevers, no persons should go to a warm climate without a box of these Pills; they are entirely of vegetable ingredients, and can be taken safely without fear. Price, 50¢ cents a box.

MYSTERIOUS.

A GENTLEMAN belonging to one of the most ancient and wealthy families of this city, who must be well known to numerous friends, having since the year 1818 up to recently, been bent nearly double, and for several years confined to his bed, has been restored to good health has regained his natural erect position and has quitted his carriage, and now walks with ease!! We believe this is the gentlemen's own description as near as possible, and there is no exaggeration in it. We will give inquirers his address, and doubt not his humane feelings will excuse the liberty; so that any one *doubting*, may *know* these facts though he requests his name may not appear in print. Among other similar instances, Mr. James G. Reynolds, 144 Christie street, has been restored, and will give personal assurances of the facts of his case. LORRAINE'S PILLS,

OR VEGETABLE UNIVERSAL MEDICINE CURATIVE OF THE

French College of Health, in Paris.

THE following letter was received yesterday by mail from Salem. It gives another evidence of the great success of *Lorraine's Vegetable Universal Pills.*

SIR I have been for many years a sufferer from the ravages of Scrofula and Cancerous Humors, which at last seated on the vitals, and exhibited all the threatening symptoms of consumption. The general inutility of all remedies awakened my enquiries as to the thousand different methods of cure, to most of which I had recourse without receiving benefit. I accidentally noticed a remarkable cure by Lorraine's Pills, and was induced to give them a trial. I sent to Boston and got a box. By the use of them I found immediate relief and was soon restored to a perfect state of health.

J. E. NEWHALL.

Salem, 21st May, 1841.

The following letter from J. B. Light, Esq. is worthy of notice.

SIR It took one of Lorraine's Vegetable Pills last evening for a pain in my head, that had effected me for several days, occasioned by taking cold. I soon felt very calm, and quiet, and a state of general repose came on which had great charms, and I enjoyed one of the most comfortable and refreshing nights rest that I ever did in my life. I rose in the morning in my usual state of health, and believe it is my duty to recommend this medicine.

Yours truly, J. B. LIGHT.

Nov. 20th, 1841.

[From Boston Daily Mail.]

Somebody wisely says, that a cap loaded with jewels and flowers will not cure the headache, nor gold chains prevent the consumption.—Lorraine's Vegetable Pills have done both.

SIR I have been effectually cured of a severe headache by the use of Lorraine's Pills.

SARAH NOYES.

SIR My daughter had all the threatening symptoms of a Consumption, such as cough, pain in the side, &c., together with general debility, but has had her health restored by Lorraine's Pills.

Rev. J. KNIGHT.

New York City, Nov. 1, 1841.

Family Medicine.

SIR I have used Lorraine's Pills in my family as a family medicine, and I would most earnestly recommend them to all persons, as the best medicine that can be procured. I would not be without them they operate mildly, and never fail to give immediate relief. Until I used these Pills I was obliged to pay from 2rom 25 to $100 per year for medicines and physicians; since then I have had no other doctor than Dr. Lorraine's Pills. JAMES NEAL.

Hartford, Conn. July 8.

Lame Back.

Sarah Snow was cured of a lame back in one day, when she had been unable to dress herself alone for two weeks.

Susan Jones of Boston, cured in 36 hours of lame back and side of three weeks standing.

Sick Headache.

Mrs. Bird of Providence says; that 'Lorraine's Pills have proved a real blessing to her. It has surpassed any thing that has been brought to the public notice. I have been cured of a sick headache that had afflicted me for years, by the use of Lorraine's Pills.

THE CONDITION.

The condition upon which nature gives health to man, is a watchful care to keep his stomach and bowels free from morbid and unhealthy accumulations. Lorraine's Pills admirably effect this, because they cleanse the bowels and purify the blood.

The human body is always healthy when the bowels are regular, the blood circulates freely, and disease invariably commences when obstructions take place in the bowels.

The extraordinary virtues of Lorraine's Pills depends upon extracts of over 50 different vegetables, all so admirably combined as to purify, nourish and invigorate the human system.

TO THE LADIES.

INTELLECTUAL DEVELOPEMENTS AND PERSONAL BEAUTY CONSIDERED IN CONNECTION WITH DOCT. FELIX GOURAUD'S POUDRES SUBTILES.

The sculptor whose study is to imitate the exquisite workmanship of nature, portrays in his model of the human form a broad and elevated forehead. This developement is not only consonant with, but sometimes necessary to the possession of a high order of mental faculty. If a fine forehead is a mark of intellect, it is no less an essential element of personal beauty, and it is of importance to those, and there are many such, possessed of this prominent feature, though obscured by the encroachments of a too luxurious growth of hair, to remove that portion of an excrescence which tends, in their case only, to deform. This can be done safely, speedily, effectually, and, if used in accordance with directions, without the least inconvenience, by Dr. Felix Gouraud's Depilatory Powders. The furze of the lip, when annoying, or the short hair on the back of a ladies' neck, when too apparent the hair of a male, or the beard, when big upon the cheek, may all be removed, and eventually the roots destroyed, by the use of this preparation.

Manufactured by Dr Felix Gouraud, 67, Walker street, one door from Broadway, N. York. $1 00 per bottle.

GOURAUD'S EAU DE BEAUTE, OR TRUE WATER OF BEAUTY.

For removing Freckles Tan Pimples, Blotches, Sores Burns, and all Cutaneous Eruptions, realizing delicate white hands, neck and arms, and elevating a healthy juvenile appearance. ☞ $1,00 per bottle.

GOURAUD'S VEGETABLE ROUGE.

Composed materially from flowers and simples imparts a delicate carnation tinge to the cheek, immovable by perspiration or rubbing with a handkerchief or a linen cloth. ☞ 50 cents per bottle.

LIVER COMPLAINT, AND ALL SICKNESS & DISEASES.

DR. LIN'S

Temperance Life-Bitters, AND CHINESE BLOOD-PILLS.

☞ The Greatest Secret Discovered ☜

PURGE purge purge has been the cry for the last few years. This has been effectually tried, and yet sufferers have multiplied and died; and why? Not because purging was not necessary; but *too much* has been done without the tonic to follow, and sustain the system. Purge, you must! The sickly humors of the blood must be carried off or the accumulation of them prevented. Prevent, then, the growth of such humors.

Why do the Chinese live to such immense ages; and still retain the powers of youth or middle age? Because they purify the blood. *The Chinese* BLOOD *Pills* so called because they work upon and cleanse the blood are the standard remedy. These Pills will do it; and the Temperance Bitters, taken as directed, will strengthen the system and prevent the accumulation of the base humors which infest the blood, and which only is the cause by purges, unless the Bitters are taken after. Buy, then, these Pills and Bitters. Take weekly the Pills and daily the Bitters; and if you are or have been invalids for days, weeks, months, or years, you will find the sickly humors drawn off, and prevented from a return, and the *sallow mellow hue* of sickness change rapidly to the *full blooming glow of health and youthful buoyancy.*

There are cases so numerous of these brilliant effects, that time and space forbid an attempt to put them down. Buy and use these medicines, and *use no other*, and health and strength shall be yours. See wrapper and directions that come with them.

FRAUDULENT COUNTERFEITS

will be attempted. Buy no remedy of the kind unless it have my name O. C. LIN. M. D. on the wrapper, and also the notice as follows:

PHENOMENON IN CHEMISTRY.

East India Hair Dye.

Colors the Hair and will not the Skin!!!

THIS Dye is in form of a Powder which in plain matter of fact may be applied to the Hair every night; the first night turning the lightest *red* or *grey hair* to a dark brown, and by repeating a second or third night, to a bright jet black. Any person may, therefore, with the least possible trouble, *keep* his hair any dark shade or a perfect black; with a positive assurance that the powder, if applied to the skin, *will not* color it. *There is no trouble in removing it from the hair, as in all powders before made.* By an occasional application, a person turning grey will never be known to have a grey hair! Directions complete with the article. There is no *coloring* in this statement, as one can easily test.

The vegetable remedy for diseases arising from the impurities of the Blood; Dyspepsia, Scrofula, and all chronic diseases, also a substitute for Calomel as a cathartic in fevers, and all bilious affections,

FROM the extensive applicability to general disease, which this remedy possesses, as is demonstrated in the detailed cures of the various complaints, the proprietor feels justified in claiming for it superior consideration. The numerous testimonials of its effects, from physicians, druggists, and distinguished individuals, places it beyond the doubtful remedies of the day and entitles it to special confidence.

These Pills have acquired an unprecedented celebrity as an anti-dyspeptic and anti-bilious remedy; and this reputation being fully sustained by the high character of its testimonials and the increasing demand for the Medicine, it is only necessary for the proprietor to continue the caution, that the public may not mistake other medicines, which are introduced as Tomato preparations, for the true Compound Tomato Pills.

They have no rival in curing billious diseases, dyspepsia, liver complaints, sick headache, jaundice, rheumatism, heart burn, acid stomach, palpitation, loss of appetite, costiveness, &c.

Those who wish the genuine medicine, so highly recommended, entirely vegetable, and prepared by a regularly educated Physician, must be particular to inquire for PHELPS' and see that they are labelled Dr. PHELPS' COMPOUND TOMATO PILLS.

THE BEST METHOD FOR THE ABOLITION OF DISEASE,

IS TO CLEANSE AND PURIFY THE BODY.

Wright's Indian Vegetable Pills, or Indian Purgative,

Of the North American College of Health,

Are now acknowledged to be the best medicine in the world for the cure of

EVERY VARIETY OF DISEASE,

Because they thoroughly cleanse the stomach and bowels of those bilious humors which not only paralyze and weaken the digestive organs, but are the cause of headache, nausea and sickness, palpitation of the heart, rheumatic pain in various parts of the body, many other unpleasant complaints.

THE INDIAN VEGETABLE PILLS

Are also a certain cure for intermittent, remittent, nervous, inflammatory and putrid fevers; because they cleanse the body of those morbid humors, which when confined to the circulation, are the cause of all kinds of

FEVERS.

So, also, when morbid humors are deposited upon the membrane, and muscle, causing those pains, inflammations and swellings, called

RHEUMATISM, GOUT, &c.,

The Indian Vegetable Pills may be relied on as always certain to give relief, and if persevered with, with most assuredly, and without fail, make a perfect cure of the above painful maladies. From three to six of said Indian Vegetable Pills taken every night on going to bed, will in a short time so completely rid the body of every thing that is opposed to health, that Rheumatism, Gout, and pain of every description, will be literally

DRIVEN FROM THE BODY.

From the same reason, when, from sudden changes of atmosphere, or any other cause, the perspiration is checked, and those humors which should pass off by the skin, are thrown inwardly, causing

HEADACHE, GIDDINESS,

Nausea and sickness, pain in the bones, watery and inflamed eyes, sore throat, hoarseness, coughs, consumptions, rheumatic pains in various parts of the body, and many other symptoms of

CATCHING COLD.

THE INDIAN VEGETABLE PILLS will invariably give immediate relief. From three to six of said Pills taken every night on going to bed, will in a short time, not only remove all the above unpleasant symptoms, but the body will be restored to even sounder health than before. The same may be said of

ASTHMA, OR DIFFICULTY IN BREATHING

The Indian Vegetable Pills will loosen and carry off by the stomach and bowels those tough phlegmy humors which stop up the air cells of the lungs, and are the cause not only of the above distressing complaint, but when neglected, often terminates in a still more dreadful malady called

CONSUMPTION.

It should also be remembered that the Indian Vegetable Pills are certain cure for

PAIN IN THE SIDE,

Oppression, nausea, and sickness, loss of appetite, costiveness, a yellow tinge of the skin and eyes, and every other symptom of a torpid or diseased state of the liver; because they purge from the body those impurities which if deposited upon that important organ, are the cause of every variety of

LIVER COMPLAINT.
